

Reinvent your Business with Appreciative Inquiry

Discover and experiment a unique model to craft change

90' **FREE** interactive virtual workshop

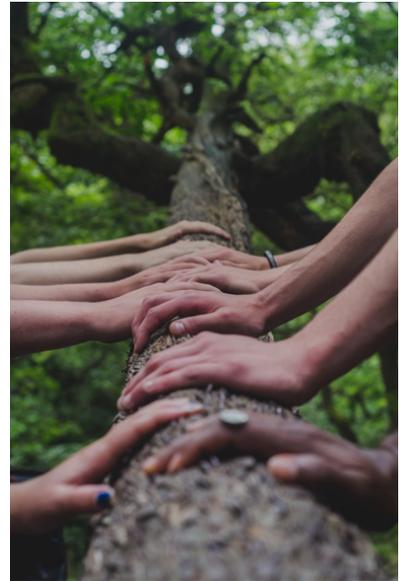

Businesses worldwide still wonder how they will recover or survive and find their way to the 'New Normal', they are engaged in processes of transformation, putting in place new organisational models, redesigning their operations, accelerating their digitalisation.

Appreciative Inquiry is a fundamental shift in the overall perspective taken throughout the entire change process "inquiring" into the organisation's strengths, possibilities, and successes.

As reinventing an organisation requires its vital forces to be fully engaged to rise to the challenges, Appreciative Inquiry is a unique and collaborative approach mobilizing individual and collective resources to create a common desired future and plan actions to make it happen.

"At its heart, AI is about the search for the best in people, their organizations, and the strengths-filled, opportunity-rich world around them"

Excerpt from: Stavros, Jacqueline, Godwin, Lindsey, & Cooperrider, David. (2015)

What you will learn?

By participating in this interactive webinar, participants will:

- Discover and experiment 'Appreciative Inquiry' a unique and collaborative approach to support and lead transformational projects
